

Business POS System

KevinOcie.com

Technology + Intelligence

Business management has never been so enjoyable. Our POS' **sleek user interface** enables efficient sales which will leave customers impressed. Our **loyalty program** will also deliver results as far as the **customer relationship** is concerned.

Our **web-based** business POS provides **inventory** management, visual sales **analytics** and dozens of extra features to help you **acquire, retain and engage** your **customers** and with Loyalty points.

Plus, **automatically** send receipts to Costa Rica **Hacienda** to comply with new regulations!

Mobile POS System

Small businesses adaptability to thrive in any circumstances is a key aspect of reaching your market. Our mobile POS allows you to continue making sales offline, with data synced immediately when internet connection is restored.

Back Office

Our web-based back office gives you access to valuable sales analytics as well as inventory and employee management. These tools drive managers toward business success.

Run Your Business Smoothly

Little training is needed to use the software, continue making sales off-line, print or email receipts. You can easily make sure everything is running smoothly and react to issues based on accurate data.
